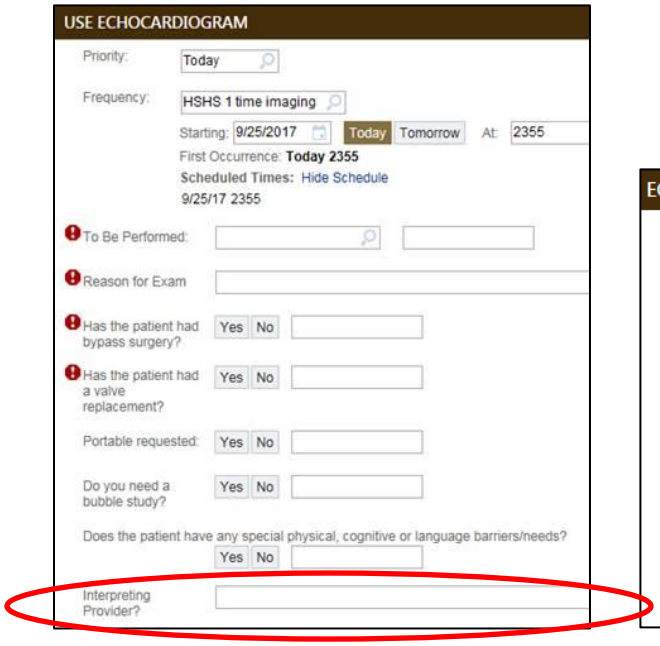
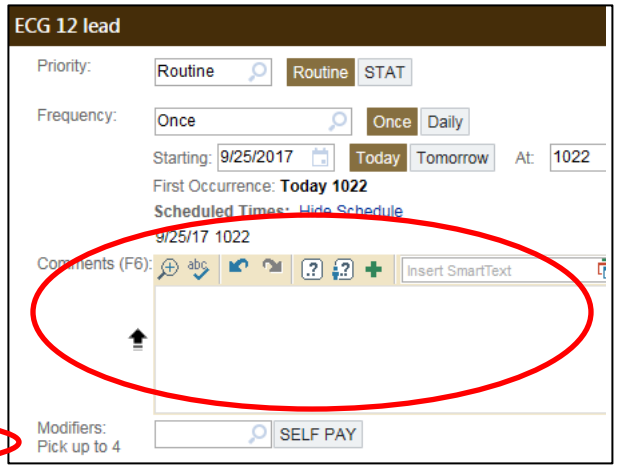
Echo and EKG Assignment Changes

For EKG and Echo orders, please include a reading provider in the comment section. Beginning October 1, all EKG and Echo orders from non-readers will be assigned on a rotational schedule unless a reader is specified.





- If the ordering physician has reading privileges, the Echo/EKG is placed in the ordering physician's inbox.
- If the ordering physician specifies a reading physician, the Echo/EKG is placed in that physician's inbox.
- If the ordering physician does not have reading privileges and does not specify a reading physician, the Echo/EKG will be alternated between ECHI, ECMC, and Marshfield Clinic Cardiologists on a weekly basis.
- All pediatric Echo/EKGs will be read by Gundersen Health System Pediatric Cardiologists unless otherwise specified.
